## **Immigration Picture Prompts**

Show students the pictures on the following pages. The first picture, "East Coast Immigration," shows a family's first sighting of the Statue of Liberty. Have students choose a person in the photo and write a journal entry describing the person's thoughts at that moment. Students should include information about where the person came from and how he/she thinks life in the united states will be different.

The second picture, "West Coast Immigration" shows a group of people entering the United States. Have students choose a person from the picture and write a journal entry from that person's point of view. This entry may be about why the person left his/her country, details about the trip, or where the person will go from here. Use the form below to write the journal entry.
